COMPANY SUMMARY

LiveWire Construction, Inc. was formed and incorporated in 2006 by Electrician and Entrepreneur, Shon Harris. Over the past decade, LiveWire has grown from a small full-service electrical contractor into a successful business with the additions of a construction management division and a concrete division. LiveWire has provided solutions to a variety of clients in the healthcare, educational, industrial and utility markets, in addition to serving customers in the private, public, and government sectors.

DIFFERENTIATORS

- | | |
|------------------------------|--|
| <i>Experienced</i> | LiveWire's ownership and management team each have over 40 years' experience in hands-on electrical and utility construction |
| <i>Client Focused</i> | Detailed planning from experienced team members that exceed customer expectations |
| <i>Innovative</i> | Implementation of AGILE™ Construction practices and a QA/QC plan |
| <i>Convenient</i> | LiveWire offers a 60,000 square foot facility available for the storage of materials |
| <i>Safe</i> | Superior safety standards and third party audited safety program. |
